

## About

Software Developer with a strong knowledge of various front-end and back-end technologies. Always passionate about what "could be", and excited by the process of bringing that into fruition.

## Work History

### **COMPUTER PROGRAMMER, PA LEGISLATIVE DATA PROCESSING; HARRISBURG, PA - MARCH 2017-PRESENT**

- Technologies used: ColdFusion, SQL (IBM), Crystal Reports, jQuery, MKS
- Assist in the further development and maintenance of the Legislative Payroll System and the Legislative Financial System created and maintained by the Administrative Application Development department.
- Strong SQL and Crystal Reports knowledge required to service and respond to Right-to-Know requests.
- Responsible for providing Crystal Reports to fulfill requests on an as-needed and recurring basis.
- Exercise time management skills to work concurrently on simple and complex projects of varying degrees of urgency in order to meet deadlines.

### **CONSULTANT/WEB DEVELOPER, PHEAA (TEKSYSTEMS); HARRISBURG, PA - AUGUST 2016-DECEMBER 2016**

- Technologies used: JavaScript/jQuery, SCSS, HTML, SVN
- Maintained a portfolio of high-profile, public-facing websites.
- Functioned as an administrator for the company Intranet, changing or updating when needed.
- Developed web pages and additional functionality for PHEAA's public sites.
- Utilized version control to ensure accuracy in development and protect the production environment.

## Additional Experience

### **INDEPENDENT DEVELOPER; 2016 - PRESENT**

- Most frequently used technologies: Node, React, ES6, MongoDB, Gulp, Git, SCSS, Bootstrap, Linux
- Create applications independently end-to-end, taking an idea through the entire development process, into a working and useful tool.
- Independent work on a variety of application types, including: web sites, mobile apps, chat bots, blogs.
- Explore unfamiliar tools to broaden my understanding and learn new skills.
